

ILANEL
CAPABILITY STATEMENT

WHO WE ARE

ILANEL Design Studio is a renowned lighting design and manufacturing company that specialises in producing innovative, high-quality, and bespoke lighting solutions. With a passion for pushing the boundaries of light and design, ILANEL has become a trusted name within the industry.

With a global reach and a collaborative approach, we work closely with architects, interior designers, and discerning clients to bring their vision to light. Our extensive product range, sustainable practices, and unwavering commitment to quality have earned us industry recognition, awards, and a reputation for excellence, both in our products and our service.

Since our establishment in 2010, we have been dedicated to crafting unique lighting pieces that captivate and inspire. Our team of talented designers and craftspeople work collaboratively to offer exquisite and customisable lighting options that cater to the distinct needs of our clients.

MAKING VISIONS COME TO LIGHT

Custom Design & Manufacturing

Custom design and manufacturing services allow individuals and businesses to create unique and tailor-made products that perfectly align with their vision and needs. Whether it's lighting fixtures, furniture, or any other item, opting for custom design and manufacturing services ensures unrivalled craftsmanship and attention to detail. By working closely with ILANEL, we can turn your abstract ideas into tangible reality.

Customisable Product Range

We believe that lighting should be a reflection of your unique style and needs. Customizing our existing Lighting Collections not only saves you time and effort but also provides a cost-effective solution compared to starting from scratch. You can rely on our extensive experience and knowledge in lighting design to guide you through the process, offering expert advice and recommendations along the way.

"ILANEL, wow, you never let us down. Working within budgets that seem unrealistic, you always come up with a strategic plan of attack and deliver incredible lighting designs, especially with our custom collaborations. Ilan and his team are the consummate professionals and I can't recommend them enough. Thank you for the continued support of ideare and we look forward to working with you in the future."
Paul S., IDEARE

"To say we are happy in an understatement! The team was awesome to deal with. We had so many questions as we had never had custom designed lights before. Feedback from friends and family has been wonderful. I highly recommend ILANEL."
Michelle B.

OUR PILLARS

Safety & Sustainability

At ILANEL, safety is a top priority. We strive to maintain high safety standards in collaboration with our clients, and we ensure that our products are built with the utmost care and quality. Our design process is focused on sustainable solutions, from manufacturing to the end-of-life of our products, including our packaging. We take every step to ensure that our commitment to safety and sustainability is never compromised.

Technical Advice

Our extensive industry experience makes our team of skilled designers and craftspeople adept at providing comprehensive technical solutions for any project. At ILANEL, we understand that our products must cater to the end-user and the tradespeople responsible for their installation and maintenance. Our designs prioritise functionality and ease of installation, ensuring a seamless experience for all stakeholders.

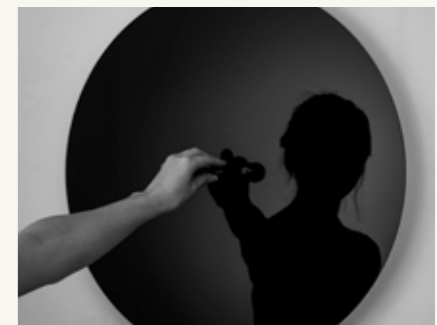

CUSTOM DESIGN SERVICES

LIGHTING COLLECTIONS

LIGHT ART

THE MALT DISTRICT, CREMORNE

Well known for its highly visible Nylex sign and silos located right next to the Yarra River, the Malt District site is transformed from its locked-off state to a public place incorporating living, working and recreation. Caydon Property commissioned ILANEL to design and manufacture custom feature lights for the 200 Coppins Corner apartments, where key characteristics of the site's heritage are therefore informing the design of the new.

01 / Consultation & Development

- A collaborative approach to developing a design concept that aligns with space, aesthetics, and functionality.
- Consider factors such as energy efficiency, budget, and specific lighting needs.
- Creation of conceptual designs and renderings to showcase various lighting options.
- Technical expertise in lighting principles to ensure optimal lighting solutions.
- Expert advice on selecting materials and finishes.

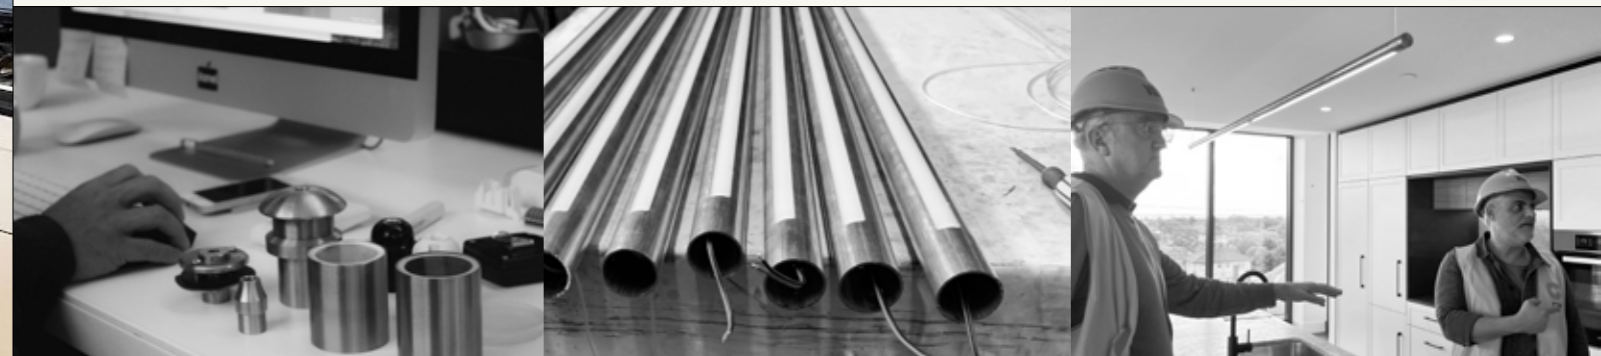

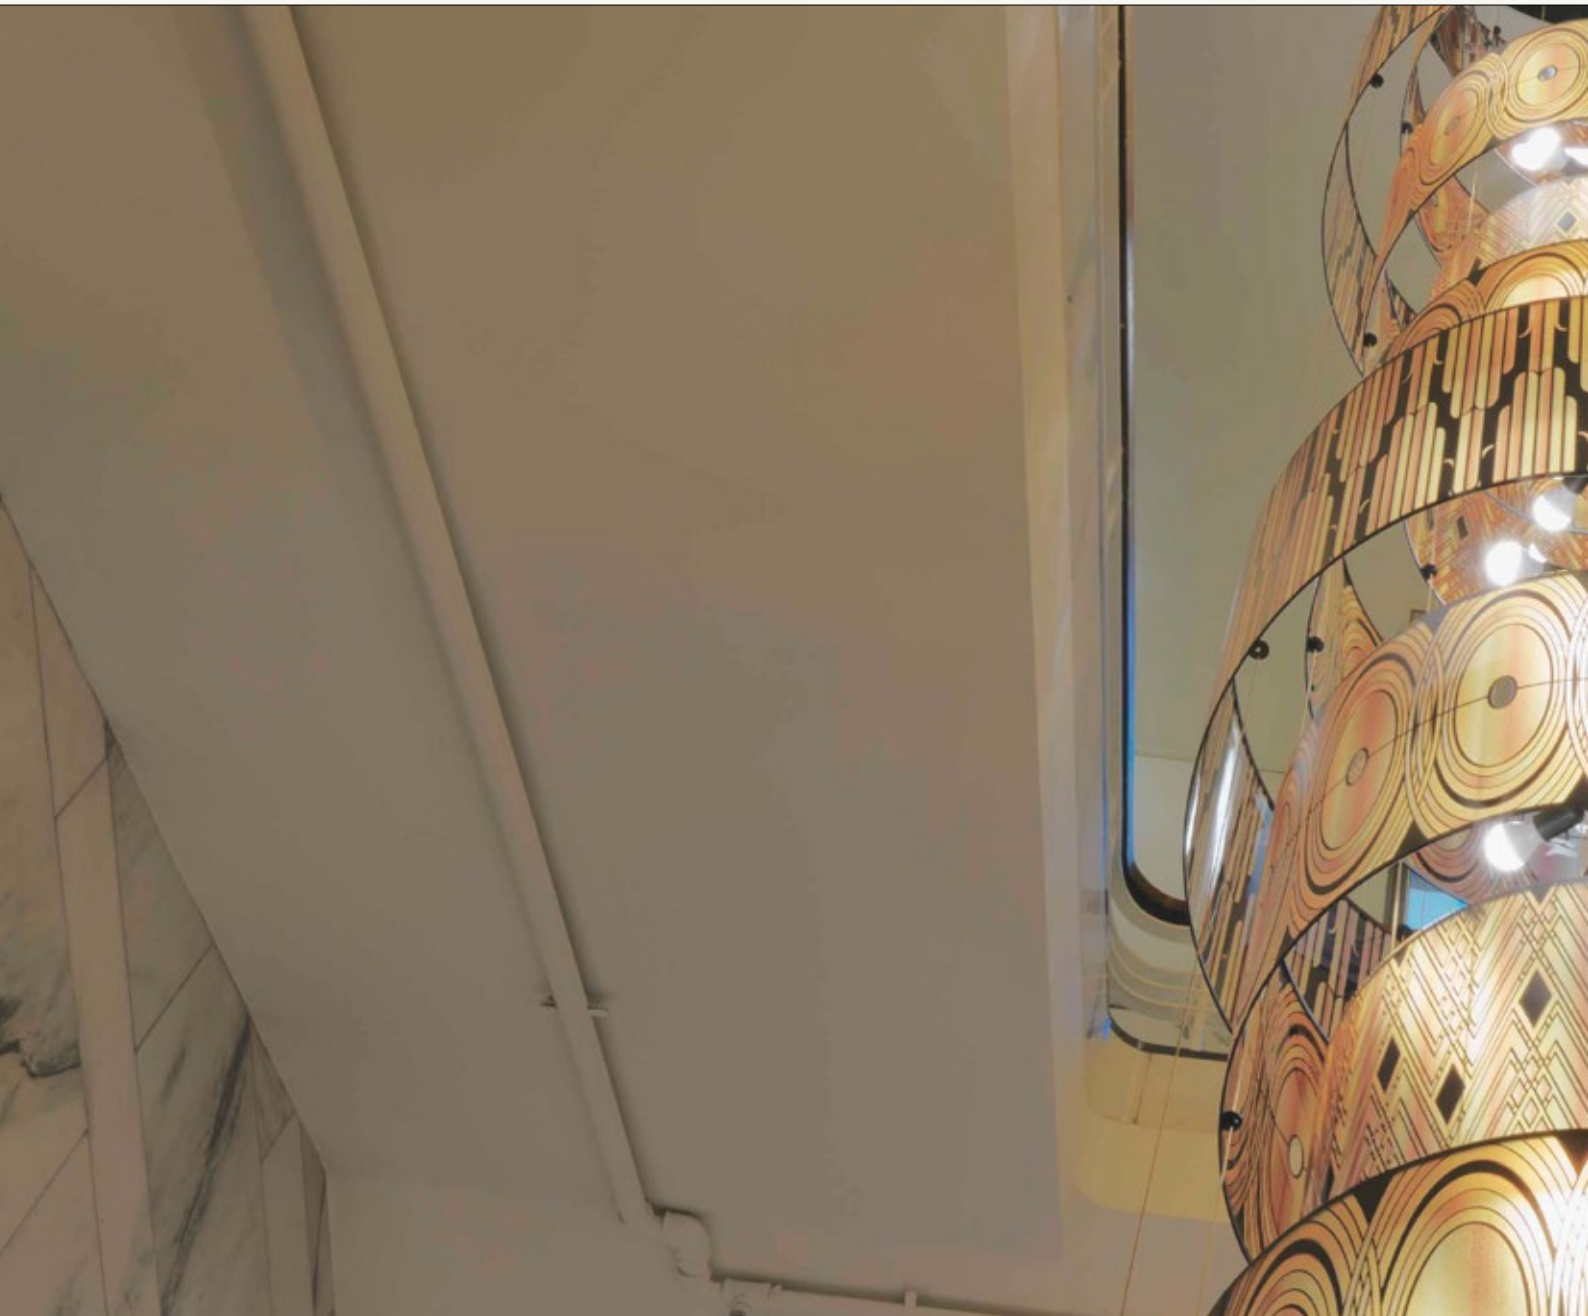

CALVARY KOOYONG, CAULFIELD SOUTH

Calvary Kooyong is a landmark retirement living, health and residential aged care precinct in Caulfield South, Melbourne. This \$154 million integrated precinct brings together premium retirement living, contemporary residential aged care and specialist health services. Calvary Health Care has commissioned ILANEL to design and manufacture custom feature lights for the 70 apartments, at the luxury complex known as, Hyson Apartments.

02 / Manufacturing & Delivery

- Meticulous oversight of the manufacturing process, working with skilled craftsmen and trusted suppliers.
- Quality assurance to ensure that custom lighting fixtures meet the highest standards.
- Collaboration with architects, interior designers, and contractors to seamlessly integrate custom lighting into your space.
- Timely and efficient project management, including installation and post-installation support.
